

ARC M2 - THE TORCH YOU NEED

230A@ 60% duty cycle and welds up to 1.0mm wires.

Think its the same as an MB25 - you'd be wrong

- **20% Lighter**
After a long day's work you really will feel the difference.
- **Perfect Balance**
A great tool for all day welding and ideal for positional welds.
- **SIC Technology**
Twist the nozzle and the spatter falls off. No more build up and hard to remove spatter that sometimes makes the gas nozzle stick.
- **Damage Resistant Necks**
Armour plated so it can stand the knocks.

ARCTORCHHOLOGY.COM

We've created a range of welding torches that will Make Work Life Easier.

This is not business as usual!
